## Projects

### Chess Wars | SDSLabs

- Chess Wars is a Star Wars themed multiplayer chess application developed and maintained by SDSLabs, IIT Roorkee. Added timer functionality and resign feature to online games.

### hackerScrapper

- hackerScrapper is a python script to view a minimalistic version of the Hacker News home page in the terminal and open articles in browser directly from it.

### Quickfix | Microsoft code.fun.do

- Quickfix is an android application made for Microsoft code.fun.do hackathon 2017 that aims to act as an interface between users and blue-collar workers for daily-household problems. The application was developed from scratch in a week's time.

### Chat

- Chat is a terminal-based app written in c that facilitates group chat. It uses Berkeley sockets api with features including admin-authentication and banning users.

## Achievements

- JEE Mains 2016 - AIR 15
- JEE Advanced 2016 - AIR 432
- KVPY(Kishore Vaigyanik Protsahan Yojana) 2016 - AIR 88
- National Standard Examination In Physics(NSEP) 2016 - Top 1 percent
- National Standard Examination In Chemistry(NSEC) 2016 - Top 1 percent

## Positions of Responsibility

- Developer at **SDSLabs**, a group of students that aims to foster technical activities in IIT Roorkee by developing applications and conducting hackathons and technical lectures/workshops.
- English editor at **Kshitij**, the official literary magazine of IIT Roorkee.
- Coordinator at **Thomso 2017**, cultural festival of IIT Roorkee.
